

Calling All Creative Young Minds!

Create an Air Quality Superhero!

Extended Deadline!

What power would your superhero have to tackle air pollution?

Young people from across the area are invited to design a superhero who has special powers to tackle air pollution.

Three of the pictures submitted will be turned into 3D lantern structures, to be included in Aldgate in Winter's spring exhibition, by artist Cristina Ottonello.

All entries will be displayed as part of the exhibition.

What power will your superhero have?

Will she use a remote control zapper to make all cars turn to bikes?

Will he use a wand to sprinkle bio-degradable glitter to take away the pollution in the air?

Guidelines:

- Please don't include weapons in drawings. We are looking for friendly superheroes!
- Please include the super power in the drawing. For example, on their cape, belt, vest or similar.

Extended Deadline:

21 February 2021

To take part:

Email pictures of your entry to Cityair@cityoflondon.gov.uk

Or Whatsapp your picture to 07834 172 302

Include your contact details with your entries

The 'winning' entries will be announced the following week

Have you sent us your Air Quality Super Hero yet?

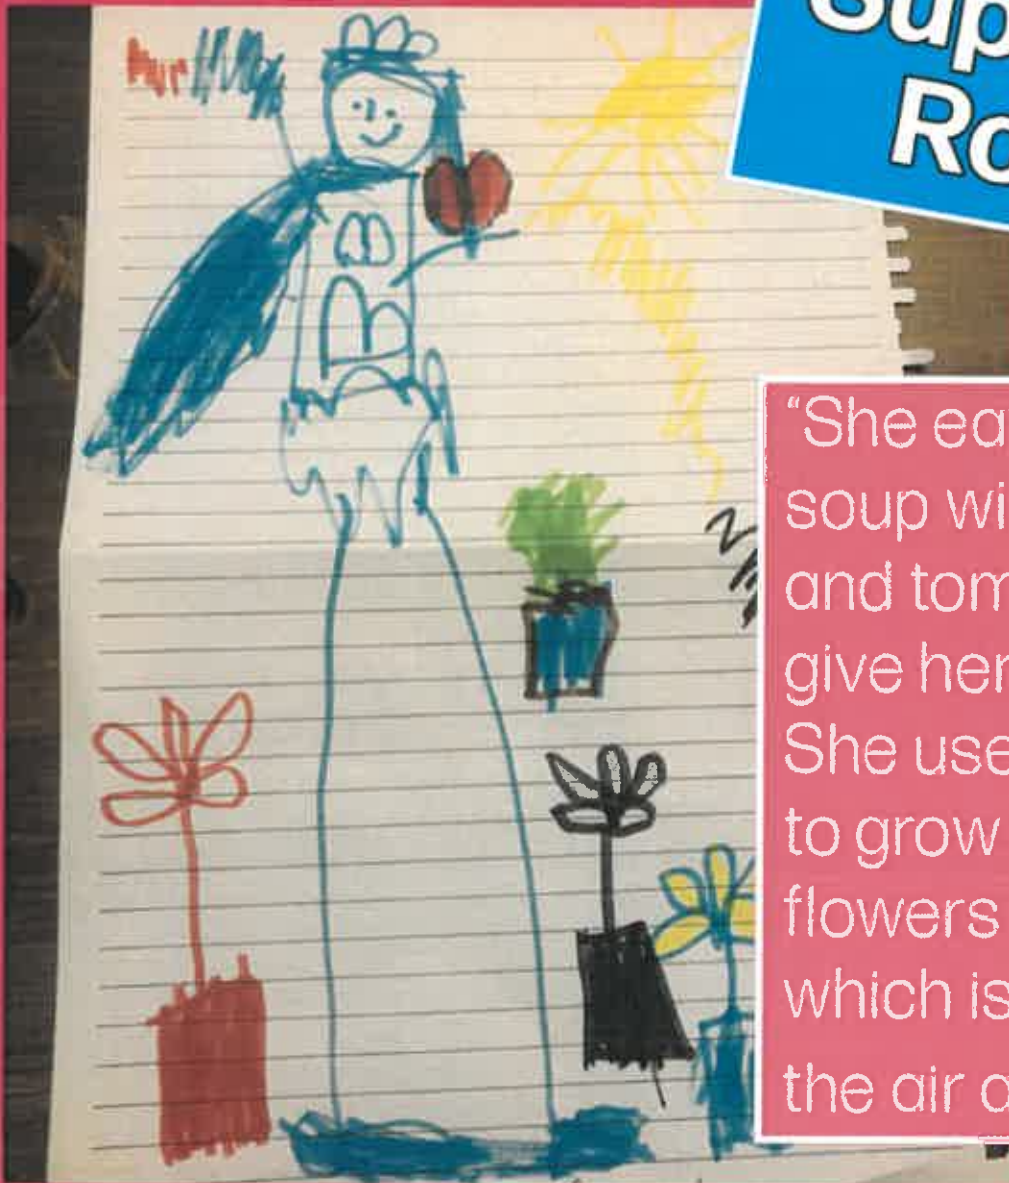

You can draw your hero or their powers, or just write what their special eco-friendly abilities are - our artist will bring your ideas to life!

**Here's a few that
we've received
so far >**

Supergirl Rosie

"She eats vegetable soup with broccoli and tomatoes to give her magic. She uses her magic to grow back the flowers and trees which is good for the air and bees"

Sia the Smashing Sparkler

by Sarah, aged 6

"She uses solar energy and harvests lightning to suck up polluted air and make the atmosphere smell of your favourite scent - fresh pancakes, shampoo or new shoes!

She does this in a jewelled mask and playing nursery rhymes for your little brothers or sisters"
